

Dunwich Community Heritage Centre

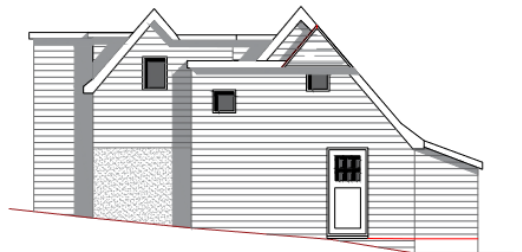

The Way Forward

We are all aware of the limitations and problems with Reading Room. The space has been suffering from building decay, poor light, a lack of storage, and is difficult to heat.

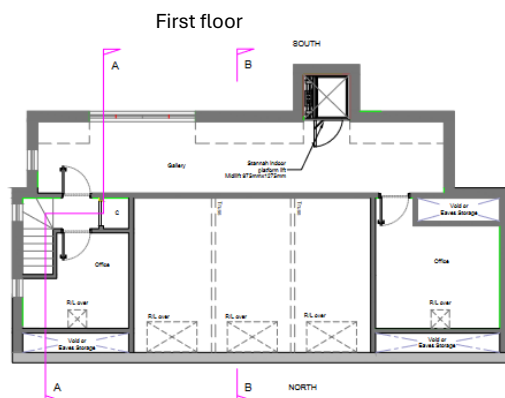

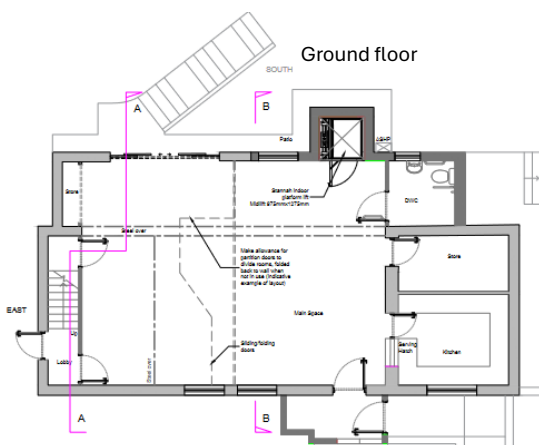

This project has given us time to look at the site as a whole, consult with users, and develop the vision for the Reading Room as a wonderful community space, within the limitations of the site.

- A more sustainable building and pleasant environment
- Lighting solutions and natural light from new windows
- Office space for museum and hall administration
- Purpose built storage for village and museum archives
- Storage for the furniture and equipment
- Moveable screens for display and division of space
- New kitchen with improved catering facilities
- Accessibly toilet and lift to upstairs
- Community archive and library
- Better technology

Back

We value your engagement with the museum and this much-loved community building. Help shape the future of the heritage centre by becoming a member and/or volunteering.

Email us at membership@dunwichmuseum.org.uk to become a member for only £10 a year.
